INTEGRITI

INOVONICS RADIO EXPANDER MODULE

RELEASE NOTES

INNERRANGE.COM

INTEGRITI INOVONICS RADIO EXPANDER MODULE V1.2.1.32712 11/07/2018

Features Added:

- Added support for EN1221S-60 Senior Living Pendant.
- Added support for EN1244 Smoke Detector.
- Added support for EN1245 CO Detector.
- Added support for EN1751 Water Detector.
- Added support for EN1210EOL, EN1215EOL and EN1215WEOL Universal Transmitters.

Bug Fixes:

- Fixed issue where change dipswitch settings could result in the module requesting a new address twice.

INTEGRITI INOVONICS RADIO EXPANDER MODULE V1.1.1.29573 05/07/2017

Alterations:

- LAN address is read from debounced dipswitch setting not instantaneous setting.
- Improved speed of reporting of LAN low voltage condition.

INTEGRITI INOVONICS RADIO EXPANDER MODULE V1.1.0.28882 05/04/2017

Features Added:

- Support for European Inovonics receiver product.
- Support for operating a Universal Receiver (E*4000) in security mode. This allows European customers to use either an EE4000 Universal Receiver or EE4200H-HSG Security-Only Receiver. In either case, the receiver will operate in security-only mode, reporting only events from security end devices.

Issues Resolved:

- Fixed bug in Inception in which if input configuration was changed from Detector to Detector Alarm 2, or vice-versa, then it would erroneously report an alarm for either input (until a power cycle, after which it behaved correctly as configured).
- An unknown end device will be regarded as a detector-type device (not a fob-type device, and not a repeater as previously erroneously handled)

INTEGRITI INOVONICS RADIO EXPANDER MODULE V1.0.2.28253 (INITIAL RELEASE) 01/03/2017

Known Issues:

- Does not support EN1752 Temperature Detector or other future unrecognised end devices.
